

Mohammad Saad

Java, Android & Flutter Developer

+91 8840207058 | mohammadsaad65283@gmail.com | LinkedIn | GitHub | Portfolio

Summary

B.Tech Computer Science student specializing in Java, Android Development, Flutter, and software development. Hands-on experience building mobile and desktop applications, participating in hackathons, and completing technical training programs. Passionate about efficient software, intuitive user interfaces, and cross-platform application solutions.

Education

United Institute of Technology, Prayagraj <i>B.Tech in Computer Science and Engineering</i>	2023 – 2027 In progress
Bishop Johnson School & College <i>Intermediate (Class XII)</i>	2022 Score: 60%
Bishop Johnson School & College <i>High School (Class X)</i>	2020 Score: 80%

Technical Projects

KavachG Edge-AI Safety Monitoring

- Built an edge-AI safety KPI and monitoring system for real-time computer vision analysis of live camera feeds.
- Stack:** Computer Vision, FastAPI, OpenCV, real-time camera feeds. Live | Source

Any Weather Flutter-Based Weather Application

- Developed the frontend interface and integrated state management for smooth real-time data handling.
- Delivered live weather updates and precise forecast tracking with efficient network requests and robust caching.
- Stack:** Flutter, Dart, Dio, Shared Preferences, BLoC/Cubit.

Scientific Calculator Desktop Application

- Architected the application logic and user interface from scratch around modular OOP principles.
- Stack:** Core Java, Swing.

Skills

Programming:	Java, Dart, C++, Python, SQL
Mobile:	Flutter, Android Development
Core CS:	Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks
Tools & IDEs:	Git, GitHub, Android Studio, VS Code

Certifications & Training

- Core Java with Collections Summer Training – collections framework and OOP implementation.
- Android Application Development Internship – hands-on training via EngineerCore.
- HackQuest'25 Participation Certificate – rapid development and collaborative problem-solving.

Achievements

- 6th Place, Bharat@100 Hackathon – built innovative technical solutions under tight deadlines.
- 7th Position, Code Aarambh Coding Competition – demonstrated strong algorithmic problem-solving speed.
- Completed 60 Hours of Core Java with Collections Training – mastered core Java paradigms through structured practice.
